— OUR STORY —

Exploring India through her Forests

Jungle Camps are a collection of four award winning, wildlife and conservation focused lodges that are set amidst the pristine wilderness to help you truly connect with nature.

Our philosophy of redefining luxury through immersive experiences finds its most intimate expression in our bespoke wildlife programs designed by the safari specialists. Intended for travellers who seek extraordinary in simplicity, we promise you a restorative experience as you witness the magnificence of Indian wildlife up close.

Founded in 2002 with its first lodge, Pench Jungle Camp spread over an area of fifty acres of natural forested estate. The founding lodge provided an intimate connection with the jungles.

This was followed by the launch of Kanha Jungle Camp in 2018. Due to the positive feedback and encouragement from the guests and the trade alike, there were more lodges added to the expansion plan - Tadoba Jungle Camp in 2021 and Rukhad Jungle Camp in 2022.

Presently, there are many more exclusive wildlife experiences and lodges in the works.

Guided by the Indian philosophy of *athithi devobhava*

We offer genuine warmth, pride in our wildlife and culture, and deeply personal hospitality for a truly transformative experience.
